2024 April Template beta 1 – 2024 April 1ˢᵗ

Table of contents

Words total (see: end of day)

// This section is hardly ever filled out

// I intend to have links to different journal entries on the "today" "yesterday"and "tomorrow" slots that help jump from 1 document to another.

| **Ebook mode (default)** | Webpage mode (coming soon) |

An important decision is in progress, for now, the compromise is to split the journaling into 2 styles: ebook mode and webpage mode. Webpage mode is currently coming soon.

Flag history:

UKRAINE (UK) – 2022 May 4ᵗʰ - Present

Other/none

Flag history was added in the **2022 June 1ˢᵗ** template. The   **Ukrainian flag** in the document title isn't going anywhere anytime soon (even after the war ends, it will still be there for a while) PDF versions will not display these Emojis due to limitations with the PDF format

Today

For first usage of the month

Today is 2024, Monday, April 1ˢᵗ. Yesterday was 2024, Sunday, March 31ˢᵗ. Tomorrow is 2024, Tuesday, April 2ⁿᵈ.

For the rest of the month

Today is 2024, DoW, April X. Yesterday was 2024, DoW, April X. Tomorrow is 2024, DoW, April X.

Morning : <subject>

I woke up at xx:xx am to

Afternoon : <subject>

Evening : <subject>

For first usage of the month
I worked on my journaling from yesterday (2024, Sunday, March 31st) from pm up until pm while I listened to | then I copy and pasted it into the 2024 March compilation document. The monthly document is now complete. Here are the stats for March:
Insert image here
And here are the properties:
Insert image here

Purely decorative this month, as I didn't use the template on day 1 (March 1st)
For the rest of the month
I worked on my journaling from yesterday (2024, DOW, April x) from pm up until pm while I listened to | then I copy and pasted it into the 2024, April compilation document. Next I wrote about my day from today (2024, DoW, April x) from pm up until pm while I listened to

Nighttime : <subject>

Late nighttime : <subject>

I eventually fell asleep at | a/pm. Please note the time I fell asleep is an estimate based on past patterns and how tired I feel at the last note update of the night. I had a [rating] day with my journaling today, getting over 1,030 words, and over 06,225 characters. The size of the journal may be a lot larger than reported, due to overnight notes, and in-document note copies. This will raise the document size by 500 words to 8000 words (the notes should be prioritized to be cut if they are more than double the amount of notes than the document itself) There are 04 pages in today's document according to LibreOffice writer. Note that "how good" of a day I had with my journaling depends on the word and character counts. Other document qualities rely on different measurements
Ratings of journaling quantity:
Less than 2000 – below average
2000-2500 – OK
2501-3000 – decent
3001-3500 – good
3501-4000 – very good
4000+ – Extremely good

| Revision note 2022 February 24th: I was going to remove the once per month used template sections, but decided to keep them. |

End of day (outro)

Outro removed on October 1st 2020, no longer necessary, as I have my journaling more under control

(PLEASE READ OUTRO TO LEARN IMPORTANT INFO ABOUT TODAYS DOCUMENT)

Outro is obsolete. Some references may remain, but you should always read previous documents first. **Don't take content out of context.**

Also, make sure to read overnight and daytime notes as well for more context, along with associated dates of new image, video, and other media data, such as screenshots, reddit, camera, and more.

This journal is a very advanced structure, but strives for accuracy.

Daily journaling started on September 27th 2016, entries before then are backed up with date data, and don't cover everything yet, I am still working on archiving older data (see: NewtonPad project | Note: not using an actual NewtonPad or an emulated one)

Images aren't spammed in journaling since the December 28th 2018 document, as it became excessive. This was the worst issue in December of 2018.

This journal is a complex structure. Make sure to read all documents, notes, and search for mentioned files to get the full context.

Outro updates are made at the beginning of each month, so check for updates on the 1st, then you don't have to read it again for the rest of the month, it will just be there (January 2020 and above) the external outro has been abandoned as of February 18th 2019.

Plot holes are very rare. If any come up, I will fill them, as I hate clusters of holes (trypophobia)

End of today's document
